

PURPOSE / SCOPE

The purpose of this policy is to provide an overview of the leave and accommodation processes to ensure that Associates understand the processes for applying for leaves of absence and workplace accommodations.

For full guidance on leave and accommodation options, including specific eligibility criteria, timelines, and additional resources, Associates should refer to the detailed policies available once logged in to the Benefits Website - benefits.carmax.com and/or CarMax World.

DEFINITIONS

Leaves Administrator: Alight is the third-party Leaves Administrator that is responsible for overseeing the CarMax leave programs and providing support to Associates during the leave process.

Phone: 866-415-3284

Continuous Leave: Allows for time off for an extended, uninterrupted period. For example, an Associate needs to miss work for three weeks due to a medical procedure.

Intermittent Leave: Allows for time off in separate blocks rather than all at once. This means instead of taking an extended period of leave, time off may be granted as needed, either by:

- Taking days off periodically (e.g., missing one day per month for medical condition flare-ups)
- Shorter absences throughout the day (e.g., missing .5 hours, per day to attend medical treatments)

Absent without Leave

Associates are required to follow the proper procedures when requesting and certifying a leave of absence. "Absent without leave" occurs when an Associate fails to provide the required documentation to support their leave request or does not comply with leave policies.

This includes:

1. Failing to request a leave of absence within 14 calendar days of the first day of absence.
2. Not submitting required documents, such as medical certificates or legal notices, by the specified deadlines.
3. Remaining absent after approved leave is exhausted or denied.

Absences without leave that are not otherwise covered by approved sick, personal or other protected time may result in disciplinary action, up to and including separation of employment.
