Lead / IC → Manager

Leadership Portfolio Reference

Associate: Gustavo Guallar

Position: Home Delivery Driver

Manager: Matthew Douglas

Date: June 24, 2026

Values

CarMax Definition (Next Level Focus)

Champions our CarMax Values. Protects and preserves our CarMax Culture.

Best Specific Example

Developed and delivered structured peer-training programs for multiple new Home Delivery associates, reinforcing CarMax's core values through daily coaching, safety leadership, and operational guidance.

A notable example occurred while training Dayan Enamorado, when I identified behaviors that were inconsistent with CarMax's professional standards.

Rather than focusing solely on operational training, I coached him using the CarMax Code of Conduct and our core values, reinforcing respect for leadership, professional workplace conduct, appropriate customer interactions, and brand representation.

Through recurring coaching, standardized onboarding, and value-based leadership, I helped champion CarMax's values while protecting and preserving the professional culture expected of every Home Delivery associate.

Developing Talent

CarMax Definition (Next Level Focus)

Serves as the daily coach by conducting observations, delivering timely feedback, and recognizing performance trends.

Best Specific Example

Served as the daily coach for multiple new Home Delivery associates by conducting structured onboarding, observing performance during inspections, loading, securement, driving, and operational tasks, and providing timely coaching and feedback to reinforce safe and consistent performance.

I recognized recurring training needs across multiple associates and developed scalable resources—including interactive mobile applications, audio training briefs, ride-along coaching guides, operational job aids, and

team training communications—to standardize instruction and improve associate readiness.

Throughout the training process, I adjusted my coaching approach to individual learning needs while helping associates successfully transition to independent field operations.

Planning & Execution

CarMax Definition (Next Level Focus)

Breaks down problems into bite-sized, easy-to-execute solutions, with organized plans for follow-up and sustainment.

Best Specific Example

Identified recurring training and operational gaps and developed scalable, easy-to-execute solutions, including the Interactive Pre-Trip Inspection App, Interactive Loading & Unloading App, Home Delivery Road Test Preparation App, Audio Training Series, Ride-Along Series, and Toolbox Readiness Initiative.

Broke complex operational challenges into structured training resources, documented results, and reinforced improvements through follow-up coaching, team communications, and recurring observations, creating sustainable tools that continue supporting both current and future associates.

I consistently identify operational trends, break complex challenges into practical solutions, and develop structured resources with follow-up and sustainment that improve long-term team performance

Working Through Others

CarMax Definition (Next Level Focus)

Delegates work yet stays connected in the daily business to hold others accountable and achieve results.

Best Specific Example

Supported the successful onboarding of multiple new Home Delivery associates by assigning progressively greater operational responsibilities while remaining actively involved through observations, coaching, and follow-up.

During Leonardo Aguilera's onboarding, I delegated equipment readiness tasks, operational documentation preparation, and store-readiness activities, then reviewed progress, provided timely feedback, and reinforced performance expectations.

I applied the same coaching approach with other new associates by monitoring development, identifying improvement opportunities, and helping them achieve independent, safe, and consistent field performance.

I develop associates by assigning meaningful responsibilities, remaining engaged through coaching and follow-up, and holding them accountable to operational and safety standards until they demonstrate consistent independent performance.

Directions of Influence

CarMax Definition (Next Level Focus)

Builds relationships with the team, gains buy-in and trust, and can vocalize opinions and persuade upward.

Best Specific Example

Built strong working relationships with associates and leadership by creating training resources, safety communications, and operational guidance that improved consistency across the Home Delivery team.

Gained the trust and buy-in of new associates through hands-on coaching and practical training tools while proactively sharing operational observations and improvement ideas with leadership.

I build trust through consistent coaching, gain buy-in by providing practical solutions, and proactively communicate ideas aimed at driving operational improvements.

Leadership Style

CarMax Definition (Next Level Focus)

Leads the team by role modeling what good looks like and inspires them to believe in the benefits of their work.

Best Specific Example

Led by example through consistent demonstration of CarMax's safety, professionalism, and operational standards while supporting the onboarding and development of multiple new associates.

Reinforced positive behaviors through timely coaching, recognition, and practical guidance, helping associates understand not only how to perform their responsibilities but why those standards matter.

By recognizing initiative, encouraging accountability, and creating a positive learning environment, I helped foster a culture of continuous improvement, teamwork, and pride in delivering a safe and professional customer experience.

I lead through consistent example, reinforce the behaviors expected of every Home Delivery associate, and help others understand the value and purpose behind our work, inspiring commitment to CarMax's standards and culture.
